

MCAT Pathway Test Preparation Program Information Sheet

Overview

In coordination with The Princeton Review, Marymount Manhattan College will be offering the MCAT Pathways (Hybrid) program to MMC students, Biology Post Baccalaureate students who have completed their course work, and alumni starting in January 2022 at a significantly discounted price.

MMC students who participate in the MCAT Pathways Course will gain access to the best test-taking resources and subject matter expert instructors. Students will receive the content and strategies necessary to master the MCAT, maximizing each student's potential for their highest score result.

Program Schedule

Program Start Date: 01/05/22

Program End Date: 04/03/22

Beginning the week of January 3, 2022, the MCAT Pathways Test Preparation Program will meet on Wednesdays from 6:00pm to 9:00pm and on Sundays from 10:00am to 1:00pm. The program will have both an in person and a virtual component.

Program Cost

The cost of the MCAT Pathway Test Preparation Program will be \$1,500. All payments will be made directly to MMC through the Center for Student Services. This is a non-credit program.

Program Highlights

- Students will participate in 66 hours of instruction delivered partially in person and partially online in the subject matters indicated below. It is anticipated that the program will be provided approximately 50% in person and 50% virtually.
- Instruction will be with certified Princeton Review instructors who will break down the MCAT Exam into manageable pieces, work with students to understand question types, and teach test taking strategies.

- The instructors are experts in their respective fields and are masters of MCAT content and strategy.
- MMC students will have access to Full-length Practice Tests to assess progress and review as well as mock MCATs designed to look and feel like the actual test plus all other available AAMC exams. This includes AAMC Practice Exams 1-4, CARS Diagnostic Tool, MCAT AAMC Official Guide Questions, Official MCAT Question Packs, Online Flashcards and Sample Test.
- MMC students will have access to drills, succinct topic specific MedFlix videos, interactive score reports and to AAMC MCAT Official online resource materials. MedFlix is a comprehensive library of all MCAT course content conveniently available 24/7 with unlimited views and tracking. The library contains over 80 hours of online video lessons per subject and are broken down into 5 to 15 minute segments covering MCAT specific content and strategies designed to offer a one-on-one review.
- MMC students will have unlimited access to The Princeton Review's state-of-the-art online student portal. Students receive personalized score reports that detail performance and pinpoint strengths and weaknesses.
- MMC students will have Access to DrillBuilder™ This tool enhances both the speed at which content is learned and the retention of that material, so students are not just learning faster, they're learning more. As each module is organized by subject and topic, students can gain mastery of the material through a variety of neuroscience techniques: assessing confidence, ensuring correct answers over time and providing clear answer explanations.
- MMC students will receive a complete set of comprehensive subject-specific review materials from The Princeton Review MCAT Book Set of 12 MCAT Publications. Four of these books are only available to students in the MCAT Pathways Course.

MCAT Pathways Course Total Sessions & Hours

Subject	Total Sessions	Total Hours
Biology	6	18
General Chemistry	3	9
Organic Chemistry	2	6
Physics	3	9
Psychology & Sociology	4	12
Critical Analysis & Reasoning Skills	4	12
Totals	22	66
